Ventrac Tractors

Ventrac 4520/4500 Series

Maintenance & Service Performed

- Engine oil change & filter
- Replace air filters
- Replace fuel filter
- Replace spark plug
- Adjust parking brake
- Replace PTO belt
- Test charging system
- Inspect gauges
- Inspect all cables for proper adjustment & condition
- Tire pressures
- Inspect steering components
- Replace hydraulic filters
- Clean out hydraulic cooler
- Full unit inspection on hydraulic system
- Clean radiator & screen
- Engine coolant level and test
- Lubricate unit
- Pressure wash

FREE Inspection and Estimate on any Attached Implement

(500 & 1000 hr hydraulic services offered at additional cost)

TORO Reelmaster® Series

Reelmaster 5410 Tier 4
w/ Edgemax Bedknifes

Maintenance & Service Performed

- Update YANMAR and TORO programs
- Check DPF load and regen if needed
- Replace air filter, inspect dust cup and baffle
- Lubricate all grease fittings
- Adjust and check brakes,
- Adjust fan and alternator belt tensions
- Inspect cooling system hoses
- Inspect all belts
- Test coolant, add as required
- Change engine oil and filter
- Replace fuel/water separator filter
- Replace hydraulic filter
- Torque wheel lug nuts
- Service battery, check connections and clean
- Adjust engine RPM (idle and full throttle)
- Test hydraulic performance and functions
- Drain water from hydraulic tank
- Drain water from fuel tank
- Inspect traction linkage movement
- Adjust rear wheel toe-in
- Check back lap function

Cutting units

- Sharpen reels/replace bedknives
- Check reel bearing preload adjustment
- Parallel cutting units and set QOC/ HOC

Reelmaster 3555
w/ Edgemax Bedknifes

Maintenance & Service Performed

- Replace air filter, inspect dust cup and baffle
- Lubricate all grease fittings
- Adjust fan and alternator belt tensions
- Inspect cooling system hoses
- Inspect all belts
- Test coolant, add as required
- Change engine oil and filter
- Replace fuel /water separator filter
- Replace hydraulic filter
- Torque wheel Lug nuts
- Service battery, check connections and clean
- Adjust engine RPM (idle and full throttle)
- Test hydraulic performance and functions
- Drain water from hydraulic tank
- Drain water from fuel tank
- Inspect traction linkage movement
- Adjust rear wheel toe-in
- Check backlap function

Cutting units

- Sharpen reels/replace bedknives
- Check reel bearing preload adjustment
- Parallel cutting units and set HOC

High hour meter recommendations available at an additional cost

See page 3 for additional pricing

TORO Groundsmaster® Series

Groundsmaster 3200
Groundsmaster 3300

Maintenance & Service Performed

- Update software
- Run regen
- Service battery/cable connections/clean terminals
- Lubricate all grease fittings
- Change engine oil & filter
- Inspect air filter, dust cup, and baffle
- Clean the radiator with compressed air
- Clean the mower deck
- Change the mower deck gear box oil
- Check the tire pressure
- Replace fuel filter/water separator
- Check the condition of the blade drive belts
- Adjust fan and alternator belt tension
- Inspect cooling system hoses
- Test coolant, add as required
- Test hydraulic performance and functions
- Replace hydraulic filter
- Torque wheel lug nuts
- Inspect fuel lines and connections
- Replace cutter blades (sharpening old additional)
- Adjust & lubricate brake cables
- Clean under cutting unit belt covers
- Adjust cutting unit drive belt
- Test engine performance
- Replace hydraulic filter
- Adjust rear wheel toe-in and steering linkage
- Replace water separator filter
- Check engine RMP high and low
- Check PTO belt
- Check PTO clutch adjustment
- ***Check operators manuel for any extra service interval work needed (Extra cost)***

Groundsmaster 4000/4100

Tier 4

Maintenance & Service Performed

- Update YANMAR and TORO programs
- Check DPF load and regen if needed
- Service battery/cable connections/clean terminals
- Lubricate all grease fittings
- Change engine oil & filter
- Inspect air filter, dust cup, and baffle
- Clean the radiator with compressed air
- Clean the mower deck
- Check the tire pressure
- Replace fuel filter/water separator
- Check the condition of the blade drive belts
- Adjust fan and alternator belt tension
- Inspect cooling system hoses
- Test coolant, add as required
- Test hydraulic performance and functions
- Replace hydraulic filter
- Inspect hydraulic lines
- Torque wheel lug nuts
- Inspect fuel lines and connections
- Replace cutter blades (sharpening old additional)
- Check the engine RPM (at idle & full throttle)
- Change the front planetary gear lube
- Change the rear axle oil level
- Inspect the cutting unit castor wheel
- Check the rear wheel toe-in
- ***Check operators manuel for any extra service interval work needed (Extra cost)***

High hour meter recommendations available at an additional cost

See page 3 for additional pricing

TORO Groundsmaster® Series

Groundsmaster 4500 Tier 4
Groundsmaster 4700 Tier 4

Maintenance & Service Performed

- Update YANMAR and TORO programs
- Check DPF load and regen if needed
- Service battery/cable connections/clean terminals
- Lubricate all grease fittings
- Change engine oil & filter
- Replaced air filter and safety filter
- Inspect air filter housing, dust cup, and baffle
- Clean the radiator with compressed air
- Clean the mower deck
- Check the tire pressure
- Replace fuel filter/water separator
- Check the condition of the blade drive spiders
- Adjust fan and alternator belt tension
- Inspect cooling system hoses
- Test coolant, add as required
- Test hydraulic performance and functions
- Replace hydraulic filter
- Inspect hydraulic lines
- Torque wheel lug nuts
- Inspect fuel lines and connections
- Replace cutter blades (sharpening old additional)
- Check the engine RPM (at idle & full throttle)
- Change the front planetary gear lube
- Inspect the cutting unit rollers
- Check the rear wheel toe-in
- ***Check operators manuel for any extra service interval work needed (Extra cost)***

Groundsmaster 5910 Tier 4

Maintenance & Service Performed

- Update YANMAR and TORO programs/check soot load of DPF filter and run regen if needed
- Service battery/cable connections/clean terminals
- Lubricate all grease fittings
- Change engine oil & filter
- Replace air filter and safety filter
- Inspect air filter housing, dust cup, and baffle
- Clean the radiator with compressed air
- Clean the mower deck
- Check the tire pressure
- Replace planetary oil
- Replace fuel filter/water separator
- Adjust fan and alternator belt tension
- Inspect cooling System Hoses
- Test coolant, add as required
- Test hydraulic performance and functions
- Replace hydraulic filters
- Inspect hydrulic lines
- Torque wheel lug nuts
- Inspect fuel lines and connections
- Replace cutter blades (sharpening old additional)
- Check the engine RPM (at idle & full throttle)
- Inspect the cutting unit castor wheels
- Check tire wear and rear wheel toe-in
- ***Check operators manuel for any extra service interval work needed (Extra cost)***

Cab units

- Check all light function
- Replace cab air filter
- Inspect condenser belt and check A/C charge

High hour meter recommendations available at an additional cost

See page 3 for additional pricing

2026-2027 WINTER SERVICE PROGRAM

TORO Workman®

Workman GTX

Maintenance & Service Performed

- Service battery, inspect cable connections & clean
- Lubricate grease fittings
- Inspect condition and wear of tires
- Change engine oil and filter
- Torque wheel lug nuts
- Inspect brakes/check brake level fluid
- Adjust parking brake
- Inspect fuel lines and connections
- Check front suspension/wheel toe-in/ride Height
- Replace the air filter element
- Replace the spark plugs/fuel filter
- Clean the engine cooling areas
- Check operation of the neutral gear shift position
- Check the condition and tension of the drive belt
- Check the tension of the starter generator belt
- Clean and lubricate the primary drive clutch
- Change the transaxle fluid
- Adjust and pack wheel bearings
- ***Check operators manuel for any extra service interval work needed (Extra cost)***

Workman HDX

Maintenance & Service Performed

- Service battery, inspect cable connections & clean
- Lubricate grease fittings
- Inspect condition and wear of tires
- Change engine oil and filter
- Adjust alternator and fan belts
- Torque wheel lug nuts
- Inspect brakes/check brake level fluid
- Adjust parking brake
- Inspect fuel lines and connections
- Inspect cooling system hoses
- Test coolant; add as required
- Replace air filter
- Adjust engine RPM (idle and full throttle)
- Adjust front wheel alignment
- Set tire pressure
- Replace transaxle Filter
- Change transaxle oil
- Change front differential oil (4WD)
- Inspect front axle CV Joint boot (4WD)
- Pack front wheel bearings (2WD)
- Replace spark plugs
- ***Check operators manuel for any extra service interval work needed (Extra cost)***

High hour meter recommendations available at an additional cost

See page 3 for additional pricing

TORO Greens Mowers

Flex 2100
w/ Edgemax Bedknifes

Maintenance & Service Performed
- Replace air cleaner filter
- Service air filter foam element
- Check for loose fasteners
- Lubricate all grease fittings
- Change engine oil
- Adjust traction drive belts
- Clean fuel filter and bowl
- Change transmission oil
- Replace spark plug
- Adjust the reel drive

Cutting Units:
- Sharpen reel
- Replace and sharpen bedknife
- Set height of cut

Greensmaster 3300
w/ Edgemax Bedknifes

Maintenance & Service Performed
- Service battery, check cable connections & clean
- Service air filter pre-cleaner
- Replace air filter element
- Lubricate all grease fittings
- Change engine oil
- Replace engine oil filter
- Torque wheel lug nuts
- Adjust steering cable (GR300/3050)
- Adjust traction linkage
- Replace spark plug(s)
- Replace fuel filter
- Replace hydraulic filter
- Test hydraulic performance and functions
- Adjust engine RPM (idle and full throttle)
- Check back lap functions

Cutting Units:
- Check reel bearing preload adjustment
- Sharpen reels
- Replace and sharpen bedknives
- Parallel cutting units

High hour meter recommendations available at an additional cost

See page 3 for additional pricing

TORO Multi Pro®

Multi Pro 1750

Maintenance & Service Performed

- Change engine oil/change filter
- Replace air filter and pre cleaner
- Clean engine rotating screen
- Clean and service fuel filter
- Replace spark plugs
- Change trans filter
- Check tire pressure
- Check front wheel toe
- Torque wheels
- Clean suction filter screen and replace O-ring
- Adjust parking break cable
- Check brakes
- Check gear shift linkage
- Check transmission for proper operation
- Lube spray pump
- Check spray operation
- Calibrate flow meter
- Calibrate speed sensor

Multi Pro 5800-G

Maintenance & Service Performed

- Change engine oil/change filter
- Replace air filter and pre cleaner
- Clean engine rotating screen
- Clean and service fuel filter
- Replace spark plugs
- Test and fill coolant
- Change planetary gear oil
- Grease and lube machine
- Replace hydraulic filter
- Check all belts and hoses
- Check tire pressure
- Check front wheel toe
- Torque wheels
- Clean suction filter screen and replace O-ring
- Adjust parking break cable
- Check brakes
- Lube spray pump
- Check spray operation
- Calibrate flow meter
- Calibrate speed sensor

Winterize your Sprayer, add $170.00

High hour meter recommendations available at an additional cost

See page 3 for additional pricing

TORO Sand Pro® & Infield Pro / Linepainter / ProCore®

Sand Pro®/Infield Pro 5040

Maintenance & Service Performed

- Change engine oil/replace filter
- Replace spark plugs
- Replace fuel filter
- Replace remote/engine air filter elements
- Adjust engine RPM (idle and full throttle)
- Lube front wheel bearing
- Lube traction control linkage
- Lube steering shaft grease fitting
- Adjust steering chain
- Torque wheel lug nuts
- Change hydraulic oil/replace filter
- Service battery, inspect cable
- Check charging system voltage

ProCore® 648

Maintenance & Service Performed

- Change engine oil/replace filter
- Replace spark plugs
- Replace fuel filter
- Replace hydraulic filters
- Replace air and pre filter
- Test safety interlock system
- Check hydraulic lines
- Service battery, check connections
- Check and adjust belts
- Inspect coring head bearings
- Test and adjust speed
- Check tire pressure
- Torque wheels

High hour meter recommendations available at an additional cost

See page 3 for additional pricing
